

PDQ Company Message on Hold

1. PDQ is pleased to announce three new Limited Colors, Primrose Yellow, Vallis Red, and Enzian Blue. Inspired by the delicate shades of nature's most beautiful flora, these gorgeous colors will enhance the decor of any home, whether on a new entry door, storm door, or on aluminum windows. Bring a touch of the outdoors to your living space with new Limited Colors from PDQ.
2. Our literature plays a vital role in our strategy to offer professional-class doors with the quality and service that no consumer-grade door can offer. We've worked tirelessly to create a suite of catalogs, pamphlets, and brochures to emphasize our new PDQ name and our unified vision of top-level service and products. Ask about our new 2008 catalog, which features **all** of our professional-class doors, when we return. Or, visit us online at w-w-w-dot-PDQ-dot-com. And then, keep an eye out. We're pretty sure you'll be seeing us around.
3. PDQ has expanded glass options! We're pleased to introduce Tuscany, our newest addition to our Decorative Glass line. This beautiful pattern adds a touch of Mediterranean style to any entryway, while protecting your home from would-be intruders. We've also expanded our Privacy Glass line to include six new door and sidelite styles. Now it's even easier to get the door you want at PDQ.
4. The door is the most important feature of a home. It is a place of transition, where public and private intersect, where the familiar and unfamiliar meet. At w-w-w-PDQ-dot-com, we have created such a place, where you can access information about our most timeless and familiar products, like our Heritage Fiberglass Doors, and discover new and exciting changes within the PDQ family of products. w-w-w-dot-PDQ-Door-door-dot-com is **your** doorway to the PDQ Door's professional class of products and service. Stop by and visit us anytime!
5. We at PDQ are pleased to introduce two new styles to our comprehensive line of Heritage Fiberglass Doors. The 429-3P and the 006C are Craftsman style fiberglass doors with an enhanced hemlock grain pattern, improved definition embossing, and a superior oak edge to prevent warping. The 429-3P is available with decorative glass, Inspirations Art Glass, Privacy Glass, Internal Grids, and Clear Glass. And, like all our doors, these new Heritage styles are Energy Star qualified.
6. At PDQ, we believe that paying attention to the small and simple things is the key to our success. And we're pleased to offer a small innovation in keyed entry systems. We now key storm doors with mortise hardware to entry doors if they are part of the same job. No more fumbling with two look-alike keys in the dark and cold, trying to figure out which unlocks the storm door and which unlocks the entry door. One key, two doors – It's just one small way in which PDQ makes life a little simpler.
7. We'd like to take a moment to recognize our outstanding staff of truck drivers. Whether they're driving over the river or through the woods, our professional drivers are committed to safely delivering your orders on time. All of PDQ's trucks feature air-ride suspension to be sure your orders always arrive damage free. And next time our drivers roll into your neck of the woods, you'll be able to recognize them, too! That's because

all our trucks have been rebranded as part of our campaign to bring professional-class products to you. Next time you have an order coming in, be sure to look for the truck with the new PDQ logo. And, please, take a moment to thank your driver for his or her dedicated service.
